

The World Wide Fund for Nature (WWF) is one of the world's largest and most respected nature conservation organizations, active in nearly 100 countries. Backed by over six million supporters and a global network of 90 offices, our committed teams are currently running 1,300 projects - working to protect biodiversity for more than 60 years.

WWF Germany operates as an independent part of this global network. While nature and wildlife conservation remain central to our mission, our work increasingly extends across sectors - supporting stakeholders in finance, politics, and society as they move towards greater sustainability.

We achieve this first and foremost through our people: individuals who are experts in their field, who roll up their sleeves, and who are passionate about our mission - all while bringing a sense of joy and energy to their work. They are driven by a shared commitment to building a sustainable future and see their role as part of a greater purpose: the belief that together, we can create a future worth living.

Do you identify with our goals of WWF? Do you share our passion and belief in making a difference?

To strengthen our department **Transformation Politik & Wirtschaft** in the subject area of **Wirtschaft & Märkte** in **Berlin** we are looking for **01.07.2026**, limited until **31.06.2028** in **full time** (with 40 hours per week) a qualified

## Project Manager (m/f/d) Risk Filter Suite - Science and Communication

### About the role:

**Research, Review & Synthesis:**

- Research, review and synthesize existing scientific work and corporate frameworks to inform new RFS functionalities, strategic alignment and risk assessment offers. Coordinate internal and external engagements to gather feedback and ensure alignment with strategic priorities

#### **Thought Leadership & (Scientific) Publications:**

- Execute the development and implementation of scientific publications and thought leadership outputs
- Drive communication activities, including reports, publications and grant proposals
- Strengthen connection to scientific networks within and outside the WWF network, including the management of project consortia

#### **Fundraising & Partnerships:**

- Conduct fundraising efforts including grants, Public Sector Partnerships (PSP), and philanthropic funding opportunities
- Support effective stakeholder communication and alignment throughout project lifecycles

#### **Support the Risk Filter Suite Team:**

- Support outreach and raising awareness (e.g., webinars, conferences, panels, etc.)
- Support research and implementation of new functionalities and tool maintenance (backend and frontend)
- Support WWF network-wide knowledge exchanges on specialist topics, and strategic advice for network offices
- Support risk assessments and the development of training programs

### **What you offer:**

- an understanding of values that matches our WWF values: Determination. Respect. Honesty. Responsibility. Co-operation.

For this **specific position** you will also bring:

- Master's degree in environmental engineering, ecology, or related environmental/biodiversity sciences disciplines
- Relevant experience in scientific research/synthesis, scientific publishing, data analysis/visualization, grant writing, or nonprofit project management
- Experience in (academic) communication, including scientific publications and funding proposals

- Project management experience and/or working with private sector desirable
- Programming experience (e.g R or Python) and data analysis/visualization required. Knowledge of spatial analysis (e.g. GIS) or an interest to learn
- Demonstrated strong stakeholder management and communication skills while collaborating with cross-functional teams
- Proven ability to prioritize competing demands across multiple projects and stakeholders while maintaining high-quality outcomes
- High level of initiative and self-organization with a focus on output
- Openness to interdisciplinary collaboration and continuous learning
- Curiosity and willingness to look beyond one's immediate area of expertise
- English professional proficiency is required, other languages are a plus

## What we offer:

- be part of something that truly matters, help make a real difference for our planet
- inspiring colleagues and the freedom to bring YOUR ideas to life
- join a culture of collaboration and purpose with flat hierarchies and quick decision-making – whether you're working from our centrally located offices in Berlin - Mitte, close to Hamburg's town hall or from one of our project locations
- flexible working hours, the option to work remotely (home office) and 30 days of annual vacation
- monthly incentives and a company pension plan
- get involved as much as you like – whether it's playing in our band, joining the football or volleyball team, or just cheering from the sidelines

## Convinced?

We're excited to get to know you! To apply, please send us your application through our platform by **Friday 19th June 2026**, including your desired salary and preferred start date. If you have any questions in the meantime, our HR Business Partner will be happy to support you.
